including pilferage and theft of power, high transmission and distribution losses, low realisation and non-viable tariff structure leading to an increasing gap between the cost of supply and realisation per unit. The Conference of Chief Ministers'/Power Ministers' held on 3.3.2001 resolved that there is a need to speed up implementation of Power Sector Reforms. The conference *inter alia* resolved that:

(i) Energy audit at all 11 KV feeders within next 6 months and accountability to be fixed at the local level. (ii) Full metering of all consumers by December, 2001. (iii) Launch of effective programmes for identifying and elimination of power thefts in next two years. (iv) Current operations in distribution would need to reach break even in two years and achieve positive returns thereafter. (c) NTPC and NHPC are not in the business of transmission and distribution of power. Therefore, the question of taking action against the employees of the NTPC & NHPC does not arise.
